

Here's to the best
wedding you've ever
been to!

MORETON BAY

Celebrancy

Relax and enjoy yourselves with me as your Reception MC

Unless you do it often, you don't realize that there's a whole lot more to being the MC at a wedding than just introducing the speeches.

Uncle Harry might be funny AF around the Christmas table but does he have the skills to keep the reception running to time and coordinate with all your other vendors?

Will the pressure of all that responsibility stop him enjoying himself? Will he have one to many sherberts and let the timing go off the rails?

Engage me for your reception as well and I will ensure that everything runs like clockwork and give support and encouragement to the special people giving the speeches.

*Would you really put
this guy in charge?*

What you Get

1. Nothing to worry about

.....and.....that's pretty much it.

Yes there will be questionnaires with this one because I need proper info as well as feels, but nothing too taxing.

Much less taxing than having to worry about timelines and vendors and entertainment yourself on the night.

Prices start from \$800, depending on location and what's required - but as an add-on save 10% off your total package.
