## CHAPEL

We have a gorgeously unique bush chapel, located on the property which is surrounded by native trees and shrubs. You enter it by walking down a jasmine-arched 120 meter grass path which takes you to the soaring white antique doors at the entrance to the chapel. When you open the door and enter, you can't see or hear anything but nature – it's pretty special. There is a roof overhead to protect from the sun and rain, but it's open on all sides. There are antique beaded glass chandeliers hanging overhead and jasmine growing up the posts and into the rafters, making the whole space feel like it's part of the landscape.

It comes with 140 white plastic bentwood chairs, a signing table and a gorgeous built in arbour made of 3 meter high antique arched doors. You can fit up to 200 people standing on the sides and at the back, where they too will have a perfect view of "I DO".

## WEDDING SHED

Our wedding shed is a 200 square meter building with a rustic yet glamorous feel - the photos below explain better! You can also see a floor plan below. The shed has an indoor bar, disabled toilets and unisex toilets. There is an annex off the North side of the building that leads into the store room which houses all our styling supplies and the huge cool-room.

The shed has two huge sliding barn doors on one side and four sliding glass doors on the other side, that open up to a massive balcony with stairs leading to the outdoor area complete with firepits, outdoor tables and chairs, cane armchairs, an outdoor bar, festoon lights and bush all around you.
